

Admissions Process

ONLINE APPLICATION:

- a) Candidates can create a profile on our application portal:
<https://applications.emiratesflighttrainingacademy.com/login>
- b) b. Complete the online application. You will need to upload the documents below, so please have them ready before you start:
 - i. Passport copy, valid for more than 6 months
 - ii. Passport photo
 - iii. High school transcript (Mark sheets)
- c) c. The admissions team will review the application at every step within 5 working days and will either:
 - i. Approve the step to move to the next step.
 - ii. Ask for more information: a few clarifications or some more details about the uploaded documents.
 - iii. Reject the application if it doesn't meet the criteria.

*Please note, UAE Nationals should apply through the [National Cadet Pilot Programme](#)

IN PERSON ASSESSMENTS:

If applicants meet the criteria in the online application, they will be invited to attend the assessment process at EFTA in Dubai. Applicants will need to make their own travel and accommodation arrangements once your assessment is scheduled with EFTA. The EFTA assessment is scheduled over five working days and consists of the following steps:

Day 1: Physics, Mathematics and Psychometrics Assessment:

- i. Both math and physics exams are computerised, 1 hour each, 30 multiple-choice questions (combination of theoretical and calculation questions).
- ii. The Psychometrics is a computer-based assessment designed to create a psychometric profile of applicants' personality traits. These traits include leadership, decision-making, emotional stability, and work attitude. In addition, applicants will be assessed on their abstract reasoning (assessing their capacity to adopt and learn from novel situations and experiences) and Spatial reasoning (assessing their ability to visualize patterns in 3 dimensions). There are no right or wrong answers in the psychometrics assessment.

Day 2: Compass Testing and Interview:

- i. The compass is a computer-based aptitude test consists of 5 different modules. During the exam, the system will guide the applicants through all the aptitude

tests automatically using on screen instructions. The test includes visual elements as well as physical inputs using a joystick and rudder controls.

The modules are as follows:

- Hand-eye coordination
 - Hand-eye-foot coordination
 - Spatial orientation
 - Multi-task management
 - Short term memory:
- ii. The interview will be a combination of personality related and technical questions

DAYS 3 & 4: GENERAL CIVIL AVIATION AUTHORITY (GCAA) MEDICAL EXAMINATIONS AND LANGUAGE ASSESSMENT:

- i. Candidates must meet the criteria for GCAA's Class 1 Medical certificate to commence the training programme.
- ii. Candidates are required to undergo a chest x-ray and an extensive eye examination as per GCAA requirements. Medical recommendation/rejection is subject to the GCAA medical team and EK Clinic Aviation Medical Examiners' assessment. If not recommended, time frame to be specified if applicable

DAY 5: LANGUAGE ASSESSMENT

- i. The language assessment is a web-based test, which measures the specific reading, listening and oral proficiency skills required to successfully undergo initial aviation training.

TIMELINES:

We run courses throughout the year. Successful applicants can join the next available course, taking into consideration the time needed to complete all the required formalities.

Applicants, who are unable to join the offered course for any reason have one year from receiving the offer letter to join a course.
